

REACH'EM: TELESCOPIC POLE COMPATIBILITY

The Reach'em has been designed to fit telescopic poles equipped with a standard ACME-compatible thread, commonly used in industrial environments. Its design ensures a stable and secure hold of the Sani-Stick, even at full extension. The following models have been successfully tested with the Reach'em:

✓ MALLORY NE416

- Length: 16 ft
- Thread: ACME compatible
- Status: Tested and validated
- [Tenaquip Link](#)

✓ UNGER H-6056

- Length: 7 to 18 ft
- Thread: ACME compatible
- Status: Tested and validated
- [Uline Link](#)

✓ GARELICK 94108

- Length: 8 ft
- Thread: ACME compatible
- Status: Tested and validated
- [Home Depot Link](#)

Please verify that your pole is equipped with a standard ACME-compatible thread. Compatibility with other thread types is not assured.
