

SECURE-STRIP®

## SECURE-STRIP®

The **SECURE-STRIP®** is designed to support microbiology laboratory professionals in response to the growing need for sample analysis. It is a handy and innovative solution offering quick access to our Secure-T bags thanks to a compact and secure dispenser.

The tear-off junction between each bag eliminates steps and increases the speed of execution. Easy to use, it is appreciated in environments where a large number of tests are performed.

**The distribution solution for your blender bags.**

## Features and benefits

- Made of FDA compliant material
- Allows a fast and easy handling in the laboratory
- The tear-off junction between each bag ensures sterility right up until the time of use
- Two types of dispenser are available: cardboard and stainless steel (suitable for clean rooms)
- RNase, DNase and pyrogen free
- Patented product

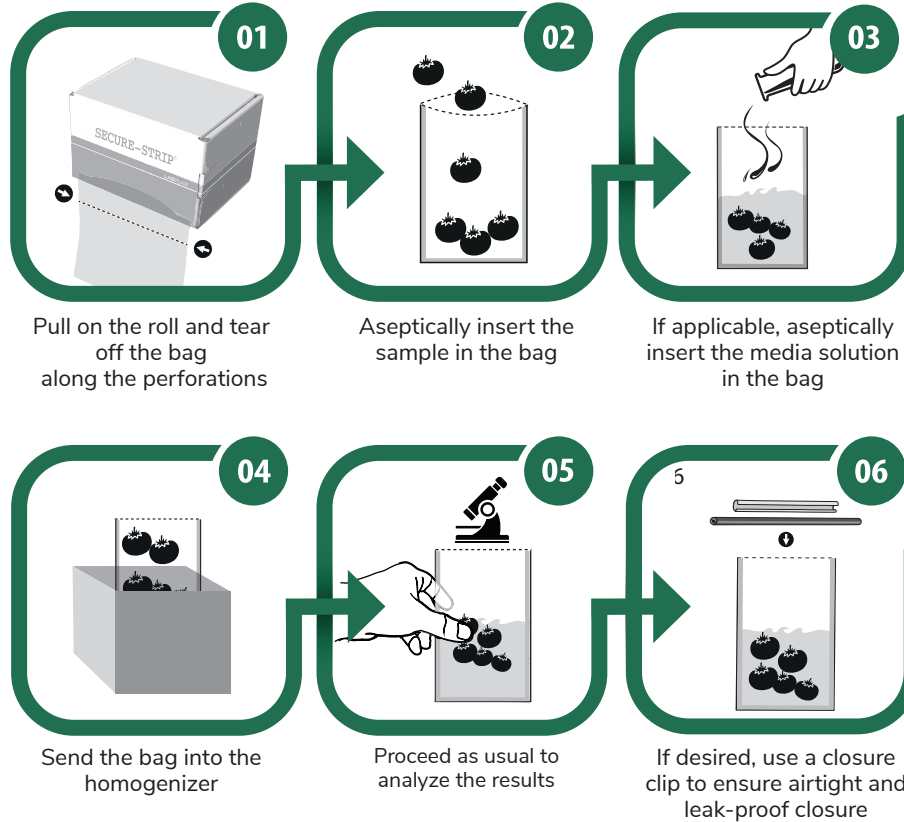

**Inspired by your challenges**
