

## GENERAL INFORMATION

Category : Sterile sampling kits

Family : Sani-Sponge

Lifespan: 15 months

## TECHNICAL DESCRIPTION

This kit consists of a Twirl'em bag and a biocide-free sponge for sampling various surfaces.

### Volume guide

<sup>1</sup>Total volume: The total volume corresponds to the maximum capacity the bag can hold when it is filled to the brim, without the possibility of closing it.

<sup>2</sup>Closure volume: The closure volume corresponds to the maximum capacity the bag can hold when it is closed with a triple twist to ensure safe transport.

<sup>3</sup>Functional volume: The functional volume corresponds to the volume of diluent or sample according to the test requirements.

## SPECIFIC INFORMATION

### CONTAINER

|                                  |                                      |
|----------------------------------|--------------------------------------|
| Type of container :              | Bag                                  |
| Material :                       | Thermoplastic laminate               |
| Color :                          | Transparent                          |
| Dimension :                      | 191 x 292 mm / 7.5 x 11.5 in         |
| Thickness :                      | 3.5 mil.in / 0.0889 mm / 88.9 micron |
| Total volume <sup>1</sup> :      | 2100 ml / 70 oz                      |
| Closure volume <sup>2</sup> :    | 1200 ml / 41 oz                      |
| Functional volume <sup>3</sup> : | 100 ml / 3 oz                        |
| Printing type :                  | Writing area                         |
| Opening system :                 | Laser scoring line                   |
| Closing system :                 | Attachment with 2 round wires        |
| Sterile :                        | Yes                                  |
| End of product life :            | Non-recyclable                       |

### INSERTION

|                  |  |
|------------------|--|
| Insertion type : | Cellulose sponge   |
| Description :    | Cellulose sponge. Yellow color. Dimensions (L x W): 3" x 1.5" (77 mm x 39 mm). Free from biocides. |
| Biodegradable :  | Non-recyclable   |

### INSERTION

|                  |  |
|------------------|--|
| Insertion type : |  |
| Description :    |  |
| Biodegradable :  |  |

### SOLUTION

|                    |                                |
|--------------------|--------------------------------|
| Name :             | Lethen Broth (LT)              |
| Type of solution : | Transport medium, neutralizing |
| pH :               | 7.00±0.2                       |

### OTHER

Sterile blue gloves are the perfect tool to complement your sampling bags and kits. The Blue polyethylene gloves are packed in individual pairs, and then irradiated to sterilize them. They are folded and packed optimally to maintain sterility.

## AVAILABLE DOCUMENTS

|                          |                           |
|--------------------------|---------------------------|
| Data Sheet               | Certificate of Compliance |
| Certificate of Analysis  | Safety Data Sheet (SDS)   |
| Certificate of Sterility | Pyrogen Declaration       |
| DNase/RNase              |                           |

## PACKAGING INFORMATION

|                                      |   |
|--------------------------------------|---|
| Outer box dimension :<br>(W x D x H) | 9.50 X 14.13 X 16.25                      |
| Box weight :                         | 5.00 LB / 2.27 KG                         |
| Conditioning :                       | 100 (5 x 20)                              |
| Storage condition :                  | Upon receipt, store between 2 °C and 8 °C |

## DECLARATION

|              |   |
|--------------|---|
| CFIA         | LABPLAS sampling bags are a solution that may be used in the CFIA Preventive Control Plan (PCP) for the seven principles of the HACCP system. The PCP is a Canadian federal initiative, under the Safe Food for Canadians Regulations (SFCR).           |
| EU           | The materials used to manufacture LABPLAS sampling bags meet, where applicable, the Eu No10/2011 standards for food contact with respect to particle migration.   |
| DNase-free   | This product is DNase-free. Sensitivity of 10 <sup>-7</sup> Kunitz units/μL   |
| RNase-free   | This product is RNase-free. Sensitivity of 10 <sup>-9</sup> Kunitz units/μL.  |
| FDA          | The plastic film used in the manufacture of LABPLAS sampling bags complies with 21 CFR 177.1520 [(c) 3.2c] of the Food and Drug Administration. Its use is limited to temperatures below 212 F according to Table 2 of 21 CFR 176.170 (c).              |
| FDA          | The plastic film used in the manufacture of the LABPLAS sampling bag meets the requirements of 21 CFR 177.1520 of the Food and Drug Administration.   |
| Biocide-free | Biocide-free material   |
| Pyrogens     | This product is non-pyrogenic at the endotoxin limit of 2.15 EU/device. Non-pyrogenicity is supported by endotoxin testing of randomly selected samples using the Limulus amoebocyte lysate (LAL) gel assay according USP-NF <85> and <161> guidelines. |
| Sterile      | Sterility is provided by irradiation. The sterilization dose ensuring a sterility assurance level (SAL) of 10 <sup>-3</sup> has been established according to ISO 11137.  |
